LEDFLEX PROFILES

# FEMTOLINE 35

PRO

The most versatile of the range. Similar as with Femtoline 25, one can opt for direct lighting with Femtoline 35 or a more indirect general lighting with Femtoline 35 F. Furthermore, Femtoline 35 can be used within the trimless Femtoline 35 TR profile, creating a black cove filled with strokes of light. As a pendant for down or down-up lighting, one can opt for the straightforward Femtoline 35 F HE D-U with its H-shaped design that hides away the plexi from below.
